

Technical Overview

Lift location	Indoors
Rated load	400 kg
Rated Speed (m/sec)	0,15 (9 m/min)
Travel height	< 13 m
Min.headroom at top landing	2500 mm
Pit depth without ramp	70 mm
Cabin size (WxDxH)	1100x1400x2200
Lift shaft size (WxD)	1460x1639 mm
Cut out size (WxD)	1500x1760 mm
Maximum number of stops	6
Standard shaft finish	Steel panels, white RAL 9016
Standard cabin finish	Steel panels, white RAL 9016
Landing door type	Hinged swing doors
Landing door clear opening size	900 x 2000 mm
Cabin door	Folding door
Driving system	Screw and nut
Control system	CANbus microcomputer system
Standard power supply	3x400VAC/3x230VAC 50/60 Hz 16 A
Motor power	4 KW
Control panel	CANbus microcomputer system
Machine room	Integrated
Certification	Impuls control
Machine room	Integrated
In compliance with	European MD 2006/42/EC
Manufactured in	Sweden
